Past performance cannot guarantee future results. Returns for periods greater than one year are annualized. Returns are expressed in U.S. dollars and reflect the reinvestment of dividends and other earnings. Composite and benchmark returns are presented net of non-reclaimable withholding taxes, if any. Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns reflect gross performance less investment management fees. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part 2A of its Form ADV.

The Integrity Small/Mid Cap Value Equity Composite includes all fee-paying, discretionary portfolios that are managed according to the Integrity Small/Mid Cap Value Equity Composite. The strategy focuses on small-to mid-cap companies that are currently trading below our estimate of intrinsic value and are characterized by improving investor sentiment. The composite creation date is January 2004 and the composite inception date is May 2005.

The benchmark of this composite is the Russell 2500® Value Index. The Russell 2500® Value Index measures the performance of those Russell 2500® Index companies (approximately 2500 of the smallest securities in the Russell 3000® Index, an index of the top 3,000 U.S. stocks by market capitalization covering 98% of the U.S. equity investable universe) with higher composite value scores.

All investments carry a certain degree of risk including the possible loss of principal, and an investment should be made with an understanding of the risks involved with owning a particular security or asset class. Interested parties are strongly encouraged to seek advice from qualified tax and financial experts regarding the best options for your particular circumstances.

Index returns are provided to represent the investment environment during the periods shown. Index performance does not reflect management fees, transaction costs or expenses that would be incurred with an investment. One cannot invest directly in an index. **Past performance does not guarantee future results.**
